Testimonial: The US Constitution is the one document that set humans free from despotism! For the first time in history, it afforded human beings freedom from others and laid a level playing field based upon individual abilities, not one's lot in life or blood line. It placed strict restrictions on the government to prevent abuse of the population at large. Our Founding Fathers and their fellow colonists rose against the mightiest army in the world to secure this Freedom for mankind. Its significance cannot be understated. That is why 28 years ago, I pledged to protect and defend the US Constitution against all enemies, foreign and domestic. It is, indeed, a humbling privilege to be counted as one of its defenders. Our time has come to honor that commitment or be cursed for failing to do so!
