Testimonial: President Obama signed a new Executive Order which expands the role and scope of Homeland Security in states and areas across the country. This order, which establishes a new Security Partnership Council, will have far reaching effects in the overall mission of Homeland Security, and for state and local areas that interact with the Federal agency.

Economically, the Establishing the White House Homeland Security Partnership Council Executive Order will increase funding and resources to state and local governments to fulfill Homeland Security programs and doctrines, as well as increase Federal oversight in the implementation of directives tied to the agencies mission.

The purpose of this order is to maximize the Federal Government's ability to develop local partnerships in the United States to support homeland security priorities. Partnerships are collaborative working relationships in which the goals, structure, and roles and responsibilities of the relationships are mutually determined.

There is established a White House Homeland Security Partnership Council (Council) to foster local partnerships — between the Federal Government and the private sector, nongovernmental organizations, foundations, community-based organizations, and State, local, tribal, and territorial government and law enforcement — to address homeland security challenges.

Sec. 3. Mission and Function of the Council and Steering Committee

(ii) promote homeland security priorities and opportunities for collaboration between Federal Government field offices and State, local, tribal, and territorial stakeholders;

(iii) advise and confer with State, local, tribal, and territorial stakeholders and agencies interested in expanding or building local homeland security partnerships; – Whitehouse.gov
