This should be a clarion call to action, broader and wider action. The Federal and State Governments exist at your behest. Is anyone actually happy with the job they are doing? So the simple answer is to stop paying them for doing a crappy job of governing. If you want less infringement on your liberty don't finance your oppressors. Stop giving them money, you are the only nation in the world that has the ability to throw off your shackles and denounce taxation at the individual level. You are armed and have the right to be armed.

While I am at it, corporations are not people, they do not nor ever should have any legal standing beyond limiting the investors exposure to losses. They should not have any say in choosing or financing politicians. A politician that takes money from any company (or any lobbyist) is probably guilty of treason or at least a conflict of interest to the degree that they should be unfit for office.

Fix these 2 problems and lead the way for the rest of the "free" world to follow.
