Testimonial: In 1986 I joined the United States Air Force. My first choice was the Marine Corp but my brother, who was a DI at Paris Island at the time, talked me out of it. Naturally, he never forgave me for lisening to him and not joining the Marines.

I joined because from my earliest memories I heard the horrors of communism. I served in Oman and Saudi Arabia during Desert Shield/Storm. Never before have I sensed such a threat to our Country and our way of life as I do now. It greatly saddens and sickens me that it is coming from within our great Country. I took my oath seriously in 1986 and I still take it seriously today. I will uphold my oath.

James MacPherson
