Active Duty Soldier Speaks Up

I intend on following your organization closely while I am in Afghanistan. I want to see it grow and reflect that our military and law enforcement are heavily made up of patriots, not mercenaries, and who fundamentally understand that what is ours already is not the government's or anyone else's to give us.

I am the first generation son of a legal Filipino immigrant who cannot understand what these elites in our 2-party system are doing to our country. I have also been an Infantryman since 2004, trained to be what enforces US foreign policy however we are able to.

I take it personally when I see Americans being mistreated and robbed of their own property rights and responsibilities.

Ray

RIP SGT Brennan Gibson. KIA 10DEC2006.
