I will uphold my Oath to the last breath

Compatriots,

I served during Vietnam in the United States Army, I took the oath then and it still applies now, but in todays world of politics, I support the Constitution more then any of the politicians in Washington, D.C. Those politicians are making a mockery of our nation and spending way too much money that we do not have to spend. I will uphold my Oath to the last breath and that includes fighting and shooting anyone whom may try to take away my rights as provided in the Constitution. I will not allow any foreign power or group to walk the streets of our nation unopposed and without a fight. I shall defend my home, my family and my friends with my last breath if I must to ensure that our freedom is NEVER infringed. It is my hope that we all stand tall and take our nation back from the politicians whom now think they have the right to dictate to us what THEY want.

God bless all the veterans of all the wars.

Leon Puissegur
