Testimonial: My name is Vince I was a Nuclear Weapons Electronic Specialist in the U.S. Army. I love this country but do not like the current government. I have loved this country all my life. My dad was a Marine and was awarded the DFC in World War II. He raised me to love and honor my country; to be an honorable man. He succeeded. I wish I had stayed in the military.

I am also a Tenth dan Blacke Granmaster in Karate Shin pu ren style, and have been doing it for forty-two years. I love our Constitution and will defend it until death.
