Special Forces Veteran: "My oath to the Republic is forever"

***To Free The Oppressed.***

**"We must win our communities back before we can win our government back."**

**I proudly served with the 1st Special Forces Group (ABN) from 1987-1991. The oath I took never ended just because I was honorably discharged. My oath to the Republic is forever. I continue to educate and stay active in winning back my community with the help of many Patriots and worthy organizations.**

**We must win our communities back before we can win our government back. Yes, some give me dirty looks and even some flak. But everyone I talk to, every letter to editor I write, every meetup at my local library I hold, I know I am planting the seeds necessary to gain understanding and trust. I urge all of you to do the same. Go to your local VFW, Amvets, American Legion Posts and tell them of Oath Keepers. Many of our elected representatives, policeman, sheriff, emergency personel are prior military. Seek them out. Commit yourself once again to be "The Professional" you know you are, and take back your community.**

**In Liberty Always,**
