Combat Veteran of Gulf War II

I swore the Oath in August 2000. When I joined the USMC. I served 4 honorable years, as an Assault Amphibian Crew chief. I participated in the 2nd gulf war. I currently follow current events and severely dissatisfied with our government.

Being a student of history, and have shaken off the conditioning one gets in both high school and at university these days, I have decided that the constitution has been trampled and darn near torn in two since the end of WWI. I am of a mind to offer my services in any form.

I had been planning to start a blog of my own to combat the growing tyranny of the the Federal Government. By tackling issues that face us as Americans.

I offer this post so that all may know that I stand where you do. I wholeheartedly accept the 10 Orders that should not be obeyed. And I will do everything in my power to help those who need it.

Anyone may feel free to contact me at jbhitt at gmail dot com
