## A mighty Storm is Forming

**I pledged it (The Constitution), I took it seriously  
and now they want me to forget about it. I guess  
the mistake I made was I read it.**

**I wrote this for a rainy day. I think that day is  
drawing near. God Bless those who would fight that  
others may enjoy freedom**

**The Blood of your ancestors is speaking.**

**The Blood of warriors from a once great Nation is  
raging in your veins.**

**Nobody wants this, but don't underestimate what it  
means or at least meant to be an American.**

**It was not an easy life and it was often threatened,  
but Good men stood their  
ground for the Right to breathe free air.**

**Everything that so many have fought and died for  
now stands to be lost and their sacrifices in vain.**

**This can not be Men, be Men.**

**Stop worrying about who scored the winning goal.**

**Be leaders of your families. Leadership is earned.**

**Earn the leadership role in your household.**

**Protect your loved ones and everything that is dear.**

**Set your mind and never relent.**

**Men, raise good men. Teach your boys about the  
price paid for breathing free  
air. Be strong, show no fear.**

**The enemy is great, but you are man.**

**Our warrior ancestors will follow us as if guardian angels.**

**Be right with God.**

**Seek His guidance and trust in the lord.**

**You are man. Women, Protect yourselves in our absence.**

**Comfort us, and offer us warmth. We need your support.**

**We need the warrior heart of woman.**

**Take care of our babies, they are our hope of a future.**

**Be true to us. Give us a chance to be good leaders in our households, for it will not be by conquest but by consent.**

**A mighty storm is forming. a storm of Patriots fighting with purpose.**

**Your enemy seeks to fulfill a mission.**

**We will show them a mission they will not soon forget and when we are long dead and buried it will be remembered what was done here.**

**We fight for our Sovereignty, that our children might grow and prosper in a free country and breathe Free air.**

**We will remind our foe that we have not forgotten what it means to be an American.**

**I love you all my brothers and sisters and I do not wish to see this end violently but if it is to be then let them know we will not shy from it.**

**Being American used to mean something.**

**So shall it be again.**

**RNE III**

**Former USAF Security Police**

**Honorable**
