Testimonial: I have taken the Oath many times...Forest Service, US Postal Service, US Air Force. I do not recall ever un-taking it and have no intention of ever doing so.

I strongly feel that citizen commitment to our Constitution and Bill of Rights is eroding before our eyes and that this is a very dangerous ethic. I am happy that this organization of like-minded individuals exists and it is my hope that our efforts to re-instill pride in and knowledge of Constitutional rights in Americans we come into contact with will turn things around. If not, I will stand with any and all who share my feeling that this Republic cannot be allowed to fail. Nothing could be more important to the futures of those who follow us.
