Article 1 Section 10 Clause 1 Nevada amended their State Consitution by ex post facto law to start a pissy fit about federal land. Michelle Fiore belongs to COWS. She belongs In Court being charged with Sedition after this Bundy Standoff nonsense.

Third. That the people inhabiting said territory do agree and declare, that they forever disclaim all right and title to the unappropriated public lands lying within said territory, and that the same shall be and remain at the sole and entire disposition of the United States; and that lands belonging to citizens of the United States, residing without the said state, shall never be taxed higher than the land belonging to the residents thereof; and that no taxes shall be imposed by said state on lands or property therein belonging to, or which may hereafter be purchased by, the United States, unless otherwise provided by the congress of the United States.

He did not pull them over, and he was not driving a fire truck. Sheesh! Regarding who has access to government lists, well, since DHS created its Fusion Centers to interface local law enforcement with State and Federal enforcement agencies and (now) the U.S. military, anyone can get info on anyone. The ex-Fire Marshal has been in that County for many years and knows all sorts of public service people including LEOs. If you don't know how things work amongst We The People, well, I've not got time to educate you. What "smells funny" here is your failed attempt to cast disparaging interpretations of reality into the minds of readers at this website. You lose. The People win.

Salute!
