—

[GEOINT](#)Logo

We will be talking in depth with D. J. of [Level 9 News](#) for an extensive look into the quantum computing goals for the people who put our military up to conducting the JADE HELM 2015 exercise this summer.

D. J. is now speaking with me and is happy to lend her knowledge for all Oath Keepers in coming articles. (I did not know, but was delighted to learn that D. J. is already a member in Oath Keepers.) While she and I are working on this, D. J. has invited me to make use of her video presentations for readers here at Oath Keepers. So let's just start with this one.

This video is a look at [GEOINT](#)— the National Geospatial Intelligence Foundation. Get your pencil and paper, and note down the keywords for your own searches later, okay? Oath Keepers salutes D. J. of Level 9 News for an outstanding presentation on the background behind JADE HELM 15.

**Readers** who may have missed my series of articles on JADE HELM 2015, which are important background info about how things have progressed to the state of affairs revealed in D. J.'s above video may catch up with the overview provided in this series.
