Air Force and Arkansas National Guard Veteran Remembers His Oath and One of the Planes He Worked On

I worked on the KC-135A in the picture while stationed at Castle AFB, CA. I do not remember if it was still an A series, or had been converted to an R, but I do remember the tail number.

I was an Avionics Guidance and Control Supervisor from 1986 to 1991 at Castle AFB. I worked KC-135A & R and B-52G airframes while stationed there.

And yes, I do remember the oath I took back in 1980, and again in 1991 when I entered the 188th Fighter Wing, Arkansas Air National Guard. Although I retired in 2000, my ID still states I am Retired Reserve.

Paul W. Davis
