

M O N D A Y , J U L

I took an oath to uphold, honor and preserve the US Constitution on two occasions: when I was inducted into the Army and when I became a lawyer

My name is Stevan Douglas Looney. I live and work in Albuquerque, New Mexico. I am a veteran of the US Army, where I was an infantry soldier (11 Bravo) from 1970 to 1972. After completing jump school at Fort Benning, Georgia, I was assigned to the 82nd Arbn Div. at Fort Bragg, NC. I was honorably discharged in March 1972.

I am a lawyer admitted to the Bar of New Mexico, the US Supreme Court, the Tenth Circuit Court of Appeals, the US Tax Court and the US District Court for the District of New Mexico. I have been practicing law for nearly 30 years.

I took an oath to uphold, honor and preserve the United States Constitution on two occasions: when I was inducted into the Army and when I became a lawyer. I took the oath very seriously on those occasions and I continue to take it very seriously today. My father was retired military and was a veteran of WWII, Korea and Vietnam. Two of my brothers served in the military. (My older brother

surely would have too, but polio made that impossible for him.) I come from a family dedicated to the preservation of our Constitutional Republic. They, like I, have sworn to defend the United States of America from all enemies, foreign and domestic.

I have studied the US Constitution, the Declaration of Independence, the Articles of Confederation, the Federalist Papers and the teachings of many political and economic thinkers, and much, much more.

Based upon my many years of study of the economic (including "money" and taxation), political and social conditions and forces at work in our country (and internationally), I am convinced that the greatest threat to our liberties and natural G-d given rights as recognized by the national Constitution and the state Constitutions, is from domestic enemies presently, and heretofore, ensconced in Congress, the Judiciary, the Executive, the mainstream media, the board rooms of supranational corporations, and particularly, the central banking system called the federal reserve in the US. Indeed, to me the root of all that ails us is to be found in the unconstitutional monetary and tax system and in international central banking.

My political and economic ideology and points of view are best depicted in the works of Edwin Vieira (Pieces Of Eight, Crash Maker, and his work on revitalization the Constitutional Militia), G. Edward Griffin (The Creature From Jekyll Island, Freedomforce), David Ray Griffin (exposing the contradictions in the official conspiracy theory of 9/11), among others. Putting my name into a search engine will yield some of the work I have been involved in, including pro bono work testifying before the New Mexico Legislature to impeach Bush and Cheney, seeking to ban the distribution of products in New Mexico containing aspartame, and seeking to protect the civil rights of persons who have been subjected to violations of their civil rights, e.g., Timothy "Little Rock" Reed and Ernest Garcia. I am also one of the founders of Veterans for 9/11 Truth. www.v911t.org

Time and space do not permit me to elaborate

further here. Suffice it to say in closing that I will never in my personal or professional capacity knowingly and intentionally take any action that deprives any person of his or her God given and Constitutionally recognized rights, nor will I follow any order or direction that instructs me to do so, regardless of the source.

I pledge my support to We The People, the true, moral, ethical and lawful source of legitimate governmental power and authority.

Stevan Douglas Looney
