Airman/Soldier Says Add Me to the List of Defenders

Add my name to those who will keep their oath to defend the Constitution and the Republic!

While I am 74 years old 21 years of that were spent in the Army and Air Force and I can still fire any weapon with accuracy!

My greatest fear is that the American people will not wake up to the galloping Socialism/Communism that is now entrenched in the government until it is too late. If they do not turn things around in the next 2 elections we will be faced with an armed revolution or to living under the type government most of us have fought against all our lives.

It is good to see organizations like Oath Keepers stepping up! God Bless!
