Sam's Intelligence Report #1

hqdefault

This is the first installment of a series I am launching called Sam's Intelligence report. We will be bringing you these Intel updates a couple of times a month. Discussing what Sam feels are the biggest blips on his radar.

Please keep an eye out for the accompanying article / video I will be releasing at in a few days that will be an introduction to Intelligence titled "Intelligence 101."

Intelligence for the Liberty Movement is an absolutely critical skill that most of those patriots out there are still lacking in...I am guilty of this myself. After meeting Sam Culper at the Oath Keepers Appellation State Summit in West Virginia this past summer I realized that we needed to help get the word out about Sam's mission to help the patriot community better learn and sharpen the skill sets involved in military intelligence and how it can help better prepare all of our communities.

Samuel Culper is a former Military Intelligence NCO and contract intelligence

analyst. He spent three years in Iraq and Afghanistan on various missions including

interrogation operations, biometrics, targeting support, and senior-level advising.

He now runs Forward Observer Magazine and teaches the craft of Intelligence to

preparedness groups around the country. Sam has also just released his first book SHTF Intelligence: An Intelligence Analyst's Guide to Community Security.

If you are interested in trolling understanding how Intelligence really impacts the Liberty Movement then you need to read his new book "SHTF Intelligence" and subscribe to his magazine Forward Observer. As an added bonus if you purchase through these links (Please click the image to open link) you will also be helping to support the Oath Keepers.
