GcMAF: THE AMAZING ANSWER FOR YOUR HEALTH.

[0 0 0 0](#)

[July 29, 2015](#)

GcMAF

GcMAF is produced in the bodies of healthy individuals. It is vital for the operation of the body's immune system. People with cancer, autism and other diseases have an unnaturally low level of GcMAF. It has been found that introducing GcMAF into the body of diseased individuals, in a very high percentage of cases, reverses the cancer, autism and at least 20 diseases. Sounds great, doesn't it? You'd think Doctors and the Big Pharma companies would be tripping over themselves to jump on the GcMAF bandwagon. Such is not the case, as GcMAF would, while saving lives, reduce the profits of Big Pharma. It would also expose the deadly effects of a compound in vaccines called Nagalase, which destroys GcMAF in the body. – Shorty Dawkins, Associate Editor
