Testimonial: My warning to the corrupt government.

Be extremely wary of events tending to advance laws stripping Americans of their right to keep and bear arms. No matter the provocation, genuine or contrived, millions of Americans will not be disarmed without a violent struggle. The society of gun-owning Americans is like a great lake: vast, deep and placid. Their firearms are rarely seen above the lake's surface from day to day, but they exist in their countless millions just the same. It would be extremely unwise to push millions of firearms owners past their boiling points, with unconstitutional laws depriving them of their right to keep and bear arms. The unintended consequences of such a mistake would be disastrous for all Americans.

I took the oath in June of 2003 and even though I'm medically retired, I will uphold my oath till death! I was a B-1 Bomber Crew Chief in the Air Force. Since I retired, I've been working as a gunsmith, building guns for myself and others. I also reload my own ammo, so I am not as affected as much from shortages. I'm ready to fight to the death for our freedoms! Just say the word and I'm there!!

Robert "Hollywood" Fredricks
412 Aircraft Maintenance Squadron / Bombers
(Retired)
