## Colonel, Special Forces US Army (Retired) Speaks his Mind

Dear Sirs,

I just saw the Oath Keeper website and agree wholeheartedly with what it stands for. I thought it might be worthwhile to send a letter to you, that I sent in February to my Senators and Congressmen. I doubt that it did any good, I think that we do need to "get in their faces" to at least have them acknowledge our disagreement with the madness going on right now.

With reference to the question I posed as to how much "overseas" money contributed to his "victory", I think the answer is now clear. All one need do is recognize that the \$900M from the stimulus bill going to the Palestinians is really being handed to Hamas. It should be fairly simple to calculate how many rockets that will buy.

Thanks, and keep up the good work, please.
