<https://www.oathkeepers.org/?p=5674#comment-7547> An Executive Order from Barack Obama this week saw further sanctions applied to some Venezuelan citizens including freezing their assets in the United States and the prevention of United States' businesses trading with them. The reasoning behind the sanctions, according to Obama is the "unusual and extraordinary threat" that Venezuela poses to the security and foreign policy of the United States.

Balderdash! I don't care for the leadership in Venezuela, but until Venezuelan Marines storm our shores and Venezuelan paratroopers land in our fields, they are no threat to us. Wrecking their economy with sanctions simply increases the illegal invaders to our SW border. Ought to be a law that re-instates the draft strictly for the progeny/nephews and nieces for our so-called leadership in Washington, District of Criminals. Such a draft would curb their globo-cop ambitions.

Teach the family how to grow potatoes and they can eat for a life time!

"We will establish 20,000 fingerprint readers throughout the socialist system to guarantee the people their food."- Methinks nanny-state will fail in the distribution, or use it against dissidents like Stalin did to the Kulaks during the Holodomor.]]>
