## A Vet and a Patriot Stands by his Oath

*"Is your oath to defend The Constitution water or dirt? "*

**Hello, I am a vet and a patriot. Is your oath to defend The Constitution water or dirt? Non compliance?!!! How about Defend! How about Act! If you will stand by and allow a tyrannical government to disarm the people by use of "regulation", then I say that your oath is water.**

**If however you are given an unlawful order to commit a crime against a citizen of The United States and you arrest the order giver, then I say that you are not afraid to get your hands dirty, then I say that your oath is firm.**

**In these troubled times we need firm oath keepers, not wishy washy wimps! If your oath is dirt, I am on board and how may I help? If your oath is water, please keep your yellow-belly org to yourself. Sincerely Yours, [Francis Pedro](#)**
