Oath Keeper Testimonial of Marine Corps Veteran

Semper Fi

40 years old and then some, but still a damn good shot. USMC trained.

I believe in this country and the Constitution I have friends that are vets - they too feel like something is going to happen, kind of like there's no way around it. Our country has been run into the ground by self serving politicians and the dreaded democrats.

I will try to spread the news about you and what you are trying to do.

I served a short time under the Carter admin 30 years ago, I advanced to Lcp but they gave me a check for the rest of my enlistment(too many men in). Looking back I should have taken the cooks job. Been retired by now if I had. Well I was 18 and I knew every thing.

Semper Fi and God bless,

Joel Ray
