

S U N D A Y , M A I

Airborne Korean War Era Veteran

In Feb. 1950 at the age of 17 I enlisted in the United States Army and took the oath to protect and defend the Constitution of these United States. Little did I know or understand at that time that the day would come that I would ever have to defend it against our own Government.

After I finished basic training I went to Ft. Benning, Georgia to take Airborne training. It was while in Airborne training that the Korean war broke out. After Airborne training I was sent to Ft. Bragg, North Carolina to the 82nd Airborne Division signal Company where I spent three years. After discharge I returned home and Married a wonderful girl and now on the 27th of March 2009, we will celebrate our 55th wedding anniversary.

Thinking back over the years I have never forgotten my oath and am as committed today as I ever was to the Constitution. Its to bad that the people running our Government today do not understand

**what our forefathers stood for and had the courage
to stand up against all those secret organizations
that wish to destroy our Nation and its
Constitution!**

Thank you.

Roger T. Pervere
