## APPs For Oath Keepers Forums and Website

**Ed Wilson** is Oath Keepers' Internet Technology guy. Ed has sent the following message for sharing with our full membership and readership.

### Greetings from the IT Department,

We would like to introduce the best way to keep up with both the Oath Keepers sites on your mobile devices. We have made the sites compatible with the App Tapatalk which you can get for the IOS and Android operating systems.

With this App it streamlines our sites to be read on all mobile devices. You can set it up to be notified whenever a new blog post is published or keep track of you favorite threads in our forums and reply ( you need to have an active forum account for you to use the forum). We hope you are as pleased with this new addition to the Oath Keepers technology as we are to bring it to you. We are working on other projects which we will announce as they get closer to release.

To use this feature please go to this link <http://tapatalk.com/m>

Once you have downloaded the App to your device you need to make an account and then just type

“Oath Keepers” in the search menu and both of our sites will show up. Subscribe to them and set up your notifications and other settings.

We hope you enjoy this and if you have any problems or questions please email [it@oathkeepers.org](mailto:it@oathkeepers.org)
