## Proud Vietnam Veteran Joins the Ranks

### Greetings, Oath Keepers

**Your organization is the first encouraging news I've come across in many years. I've watched our wonderful country slide into a deplorable state, controlled by interests that have nothing to do with the fine ideals upon which it was founded. As a proud veteran I gladly and willingly wish to join your ranks to stand proudly by your side to defend our constitution - the constitution the past presidential impostor called, "just a goddamn piece of paper."**

**I was attached to the US Army Support Command, in Qui Nhon, occasionally tdy to the 93rd MP battalion and an engineer's battalion. Again, I salute you people who have the courage to stand firm in these troubled times. The speed this organization is growing speaks volumes about how many men and women are out there who refuse to accept the direction America seems to be heading.**

**I'm passing your blog on to everyone I know, and will continue to check in to read the great comments men and women are posting. Again, this is encouraging news.**

**Michael "Mick" Callas**

**SP4/E4, active duty 1966-69, Vietnam Veteran  
1967-68.**
