Testimonial: I swore an oath when I joined to uphold the constitution against all enemies foreign and DOMESTIC!, And I intend to do just that. I can also tell you that I'm am not alone. There is a huge number of my brothers in uniform that feel the same. Our government has overstepped it's authority and We The People will not stand by and let this happen. We as Americans are all entitled to our freedoms and liberties as it clearly states in our Constitution and our Bill of Rights. All I can say is remember where your freedom came from, and the great men who bled and died for it. Stand strong citizens and god bless.
